dassoXTR SPACE GREY decking with the long-lasting and durable treatment leaves the top layer of bamboo fiber with a futuristic space grey color. And it maintains the natural beauty of bamboo vein by applying sealant.

The space grey color is a four-season color, in addition to the compliment of cool tones, it also adds a touch of elegance to warm tones. It is a great shade that can be mixed and matched with a variety of color schemes and decors.

This particular color choice not only appeals to architect and landscaper's preference in terms of the courtyard, boardwalk and patio style, but also It is also an excellent solution for mitigating discoloration of natural materials after prolonged exposure to UV light.
